Filas (Almacén de filas - MySQL)

FILA

ID	Producto	Color	Tamaño	Precio
----	----------	-------	--------	--------

Almacenado como filas

The diagram consists of five overlapping orange rectangles, each divided into four vertical sections by thin black lines. The rectangles are arranged in a staggered, overlapping fashion from left to right, creating a sense of depth and progression. The top edges of the rectangles are slightly offset, with each subsequent rectangle from left to right being shifted further to the right. This visual representation likely corresponds to the five steps listed in the adjacent table.

Ideal si operas con filas añadiendo, actualizando, borrando
